

NEVER COMPROMISE SAFETY

Too often in our daily lives, we experience **PRESSURE...**

In designing, producing, maintaining or operating an aircraft

In assessing compliance documents

In preparing customer requests

In managing resources or commitments

PRESSURE IS ONE OF THE MOST FREQUENT HUMAN ERROR PRECONDITIONS. LOOK IT UP ON SKYBRARY.AERO UNDER “DIRTY DOZEN “ TO LEARN MORE.

NEVER COMPROMISE SAFETY

Everyone should report hazards. It is an important step for an efficient SMS.

YOU

place a report in

HAZARD REPORTING TOOL FOR EMPLOYEES

Which transfers the report to

RISK MANAGEMENT TOOL

Safety staff consolidate the risk assessment

... and safety barriers are created or strengthened

FOR HAZARDS AND EVENTS, REPORT TO YOUR MANAGER, SAFETY REPRESENTATIVE OR USE THE REPORTING TOOL TO ENABLE A COORDINATED AVIATION SAFETY RISK MANAGEMENT.

NEVER COMPROMISE SAFETY

Lack of knowledge is part of the Dirty Dozen, the most common human error preconditions.

Are you sufficiently trained for what is expected of you?

Do you perform training & skill management in your team?

- Quality Basics
- Just & Fair Culture
- Regulations
- FOD process
- English
- Time management

Do you know the process/task you have to apply?

Do you share lessons learned with other people who conduct similar tasks?

Lessons learned

Are you sure that you know enough to validate your deliverable?

ICAO annex 19 recommends a Safety policy with management commitment for a positive safety culture

NEVER COMPROMISE SAFETY

Identify all the hazards

Apply the good reflexes

HAZARD: HEIGHT
 → FALL
 → INJURIES

HAZARD: COWLING ON GROUND
 → HIT BY SOMEONE
 → DAMAGED, OPENING IN FLIGHT

HAZARD: CABLE
 → TRIP
 → INJURIES

HAZARD: TOOLS
 → FOD
 → FLIGHT CONTROLS BLOCKED

HAZARD: BLADE
 → SHOCK
 → INJURIES

HAZARD: HAZARDOUS CHEMICALS
 → INCONVENIENCES, HEADACHES
 → HEALTH HAZARD

Report all hazards impacting people and aircraft to your manager or safety representative

NEVER COMPROMISE SAFETY

Caring for each other & teamwork are strengths of the aviation industry

IF SOME ARE WORRIED BY THIS CHANGING ENVIRONMENT
WE HELP COLLEAGUES AIR OUT THEIR CONCERNS

IF THERE IS PRESSURE,
WE SPEAK UP AND WORK TOGETHER ON A SOLUTION

IF SOME FEEL ALONE,
WE SHOW TEAM SPIRIT

We are a team You are not alone

People Safety & Aviation Safety results from everyone's care. We care about each other in these difficult times.

NEVER COMPROMISE SAFETY

Being distracted can have **significant Quality / Safety impacts.**

Employees performing a sensitive task or reviewing important documents must be protected from distraction-generating interruptions.

Preventing these interruptions is part of everyone's role, no matter where you work.

Example of possible solutions to prevent:

"do not disturb"
red vests

A silent meeting
room or noise-
cancelling headset

To recover:

Poka yoke
task design

Check lists,
independent
verification

Distraction is one of the most common human error preconditions.
